QUAYLE ACTION

1. The amendment filed on August 17, 2006 has been entered.

Drawings

2. The drawings are objected to because of the following informalities:

The drawings, particularly Figure 8, do not clearly indicate a recess as set forth in claims 33 and 38, particularly a recess that accommodates the stop 72.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 26-45 are objected to because of the following informalities:

In claim 26, line 8, the recitation "immediately adjacent" appears to be inaccurate, and it seems that it should be changed to --proximate-- or the like; in lines 10-11, the recitation "and said first portion defining a first angle" is not sufficiently clear as to what is being set forth, and it seems that it should be deleted.

Claim 34 appears to be redundant with respect to the subject matter of claim 26 and it seems that it should be canceled.

In claim 37, line 11, the recitation "immediately adjacent" appears to be inaccurate, and it seems that it should be changed to --proximate-- or the like; in lines 11-12, the recitation "said first portion" lacks positive antecedent basis; in line 14, the recitation "and said first portion defining a first angle" is not sufficiently clear as to what is being set forth, and it seems that it should be deleted.

Claim 44 appears to be redundant with respect to the subject matter of claim 26 and it seems that it should be canceled.

Appropriate correction is required.

Allowable Subject Matter

4. Claims 26-45 are allowable over the prior art of record.

Conclusion

5. This application is in condition for allowance except for the formal matters described above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
